SDCA needs you sign up for volunteers. We rely heavily on parent volunteers to maintain all non-academic functions of the school. We charge a service fee of \$60 per family, which is refundable when a parent participates as a volunteer. We understand and agree that if a claim, suit, or attachment is brought or sought against us as a result in any way of my child's/children's participation in Activities, that we shall not be entitled to any defense or indemnification by SDCA or any Released Parties in connection with such claim, suit, or attachment.

SDCA is a non-profit educational organization. Our fees are kept low to provide enrollment opportunity for all students. Although our teaching staffs are salaried, we rely heavily on parent volunteers to maintain all non-academic functions of the school. We charge a service fee of \$80 per family, which is refundable when a parent takes part as a volunteer. Refund will be given in the form of \$80 value of Scrip gift cards. Please stop by the office on the Scrip Day to get your Service Refund. The more parents we have to volunteer, the less duty each parent will have to do. Your involvement will always be highly appreciated!

To sign up for the volunteer opportunity, click on the “Volunteer Sign Up” button that can be easily found on the top and the bottom of the Home page or at the end of registration.

聖地牙哥中華學苑為非營利教育機構。為使所有學生享有平等之就學機會，本校採取低學費政策。除教師主要行政人員支薪外，校內所有課外活動大多仰賴家長服務才得以舉辦。本校酌收每個家庭代勞費60元，但只要家長參與校內服務達一定時數，此項費用即可退回。申請退費時，即以等值60元禮券退還（家長必須完成退費申請手續，方能領得退費）。參與的家長人數越多，每人分擔的工作就越少。請熱心參與您孩子的教育。感謝您！

Please select up to three jobs that you are interested. Click on 'Submit' button when you are done. PTA will contact you soon. 請選擇您最感興趣的工作，最多選三項。全部完成後請按 'Submit' 確認。家長會將會盡快與您聯繫。

Import CSV File to Excel

When import CSV file with Chinese character content, one way to set up the Unicode uses the Data import feature. First, we create a new blank workbook, and then click on the “Create” button.

From the “Data” tab click on “From Text”. A file search window will pop up. Select the CSV text file from your PC then click on the “Import” button.

To ensure Excel displays Chinese characters properly, on the “Text Import Wizard – Step 1 of 3” window, select “Unicode (UTF-8)” for “File origin”. Then click on the “Next” button.

Next step, we need to specify the delimiters to separate each column. Since we use “Comma” as the delimiter for the CSV file, check the “Comma” box on the “Text Import Wizard – Step 2 of 3” window.

The last step lets you select each column and set the Data Format. If your data have date content, you can select the date format. Or leave it as default “General” then click on “Finish” button.

The screenshot shows the 'Text Import Wizard - Step 3 of 3' dialog box. The title bar is blue with a question mark and a close button. The main area has a light beige background. At the top, it says 'This screen lets you select each column and set the Data Format.' Below this is a section titled 'Column data format' with four radio buttons: 'General' (selected), 'Text', 'Date: MDY' (with a dropdown arrow), and 'Do not import column (skip)'. To the right of these buttons is a text box explaining that 'General' converts numeric values to numbers, date values to dates, and all remaining values to text. There is an 'Advanced...' button next to this text. Below the 'Column data format' section is a 'Data preview' section containing a table with five columns. The first column is highlighted with a black background. The table has two rows: the first row contains the word 'General' in each cell, and the second row contains 'Class Short Name', 'English First Name', 'English Last Name', 'Chinese Name', and 'Parent'. To the right of the table are vertical scroll arrows. At the bottom of the dialog are four buttons: 'Cancel', '< Back', 'Next >', and 'Finish'. The 'Finish' button is highlighted with a red rectangle.

Delete Blank Rows from Excel

There is a known bug from Ruby on Rails. When download file as CSV it generates blank rows between each record. One easy way to remove these blank rows is to use Excel to select all blank rows then delete those rows. Following are the instructions.

After import CSV text file to Excel, select any one column from the alphabet cell from the top which highlights the column from the top of your list to the bottom.

Use the function key “F5” as a shortcut to “Go To” window.

To go to blank lines, check the button of “Blanks”. Then click on “OK” button.

All the blank rows will be highlighted.

From the highlighted column, use the right button from the mouse and select “Delete”

Check the “Entire row” button then click “OK” button. All the highlighted blank rows will be removed.

Instructor / Room Parent

When an instructor or room parent sign in to school portal, the "Instructor Resources" displays before the personal information. This teacher's or room parent's student list button will be included in the "Instructor Resources".
